

Brookfield Local School District  
The Spear-it Shoppe

Through the generous contribution of the Arconic Foundation, the Brookfield Local School District was awarded a \$60,000 Grant for the creation of a school store, “The Spear-it Shoppe”.

The equipment purchased will allow us to make whatever our students' imaginations can create; anything from stickers, posters, banners, statues/figurines and plaques, to different types of apparel. Whatever our students can imagine, they can create.

We are in the process of getting “The Spear-it Shoppe” up and running; students will be designing, creating, printing items for inventory. This will be a student run school store as part of our Business Pathway; the items they create will be on sale during each building’s lunch period at least one day per week. The money raised from the sale of these items will help in the replacement of ink, materials and equipment maintenance.

It is our hope that “The Spear-it Shoppe” school store is successful so we can provide a \$500 Scholarship for at least one senior student (two, if financially possible) in order to help with their secondary education plans.

To see the capabilities of the Maker Space that was created through the Arconic Foundation Grant and Strimbu Family and Community Foundation of Shenango Valley, please [click](#) on the link below then [click](#) on “Our Equipment” in the top right corner.
